

Repair Service

We are delighted to offer a full repair service at our Kettering factory. All our Goodyear Welted shoes (including rubber-soled) are designed to be repairable and our expert craftsmen will resole the shoes on the original lasts. Moccasins can also be repaired with a leather or rubber sole.

The service, which can normally be completed within 21 working days, includes a full refurbishing treatment. Customers should return their shoes to the shop where they were purchased to arrange the repair, or alternatively send them direct to the factory.
